Kamusta (Hello) and Mabuhay (Welcome)

On behalf of the 733d Air Mobility Squadron (AMS), and our Commander, Lieutenant Colonel Michael D. Garrott, OL-A, welcome to Clark, Philippines. We'll strive to make your travel experience as comfortable and pleasant as possible. The following information is provided to better assist you with your travel arrangements during your stay in the local area. If you have any questions during your travel, our passenger service representative will be happy to assist. We look forward to serving you now and in the future. Specific information concerning Space Available travel can be found on AMC's Official Travel Website at <https://www.amc.af.mil/Home/AMC-Travel-Site>.

Operating Location-Alpha (OL-A), Clark IAP, Philippines is a small two-person operation providing support and services to DoD owned and controlled aircraft. We are located in the Haribon Terminal on a Philippine Air Force Base and must abide by all rules and regulations of the host nation. Unfortunately, due to new security restrictions and clearance procedures imposed by the Armed Forces of the Philippines (AFP) for all foreign visitors, the Joint United States Military Assistance Group (JUSMAG) under the U.S. Embassy in Manila have suspended approval of base clearance requests for originating space available travel passengers until further notice. Space available travel into Clark is still permitted. However, once you arrive Clark and depart the base to clear immigrations, you will not be permitted back on base. We apologize for the inconvenience this causes. However, this is out of the Air Mobility Command/JUSMAG's immediate control. JUSMAG is working diligently in hopes of restoring originating space available travel as soon as possible.
